RICA MAE V. PINTOY

WEB DEVELOPER

Mabalacat City, Pampanga · +63 975 081 4958 · ricapintoy@gmail.com · www.linkedin.com/in/rica-mae-pintoy

PROFESSIONAL SUMMARY

Results-driven Web Developer with 2+ years of experience building and optimizing full-stack web applications using React, JavaScript, PHP, and SQL. Proven track record of delivering responsive, user-centric interfaces and scalable backend systems — including internationally deployed enterprise platforms used by thousands of employees across multiple companies. Passionate about cloud technologies, AI-assisted workflows, and continuous improvement. Cum Laude graduate with strong problem-solving skills and a drive to deliver clean, efficient code.

WORK EXPERIENCE

Trackerteer Web Developer Corporation *June 2024 – Present*

Web Developer Clark, Pampanga

- Engineered responsive, mobile-first interfaces with React, JavaScript, HTML, and CSS — improving load speed and UX across multiple internal enterprise modules.
- Built and optimized PHP/SQL backend services handling production data for 100+ daily users, reducing processing errors and improving system reliability.
- Collaborated with cross-functional teams to gather requirements, ship new features on schedule, and resolve critical system issues — accelerating delivery cycles.
- Integrated REST APIs between internal and external systems, enabling real-time data synchronization for leave management and RFID operations.

Trackerteer Web Developer Corporation *August 2023*

Web Developer Intern Clark, Pampanga

- Developed frontend task-tracking displays using HTML, CSS, JavaScript, and SQL, improving data visibility for end users.
- Designed and implemented a complete session-based authentication module, establishing secure login and access control for the organization's internal platform.
- Built reusable layout components (headers, footers, navbars) ensuring consistent branding and cross-device responsiveness.

EDUCATION

Tarlac State University *2020 – 2024*

Bachelor of Science in Computer Science **Cum Laude · Dean's Lister (2020–2024)**

TECHNICAL SKILLS

Frontend	React.js · JavaScript · HTML5 · CSS3 · Bootstrap · Tailwind CSS · jQuery · AJAX
Backend	PHP · Node.js · REST API · Java
Database	MySQL · SQL
DevOps & Tools	Docker · Git · GitHub · SVN (TortoiseSVN) · Vercel

CERTIFICATIONS & AWARDS

Certifications

- AWS re/Start Program Graduate (2022)
- Switching, Routing, and Wireless Essentials – CCNA 2, Cisco Networking Academy (2021)
- Introduction to Networks – CCNA 1, Cisco Networking Academy (2020)

Awards & Leadership

- Cum Laude — Tarlac State University, 2024
- Dean's Lister — Tarlac State University, 2020–2024
- Board of Public Relations — Junior Philippine Computer Society (JPCS), TSU Chapter, 2023

KEY PROJECTS

TaskBanana – PLM & Enterprise Operations System | *PHP · MySQL · JavaScript*
Contributed to a multi-module enterprise platform serving designers, procurement, inventory, and production teams across garment manufacturing operations. Deployed across multiple companies internationally, supporting thousands of employees with improved cross-team collaboration and full product lifecycle visibility.

Production Performance Monitoring System | *React · Laravel · PHP · MySQL · AJAX*
Built a React dashboard tracking weekly sewing operator output across the year, with data visualization and quota attainment reporting. Adopted by the CEO and management team to actively monitor sewing operators productivity across the organization.

Ticket & Workflow Management Systems | *PHP · MySQL · JavaScript · AJAX*
Built two enterprise systems — a support ticket tracker and a clothing design workflow coordinator — featuring task assignments, status tracking, and collaboration tools. Adopted by ~97% of Trackerteer employees as their primary task management platform, with the workflow system also deployed to a sister company's design team to enhance cross-team collaboration efficiency.

RFID Data Management System | *PHP · MySQL · JavaScript · AJAX*
Built to handle millions of RFID records, centralizing product, inventory, and logistics data with validation and retrieval features for accurate warehouse management and inventory tracking operations.

Supervisorial Leave Approval Module | *PHP · MySQL · JavaScript · REST API*
Developed a leave management module integrating with an external attendance system via REST API, enabling GMs to review, approve, and track supervisory leave applications in real time.
